

Now and Forever, Innovation for Customers.

Nitto Advanced Film Gronau GmbH

For every generation: your experts in nonwovens & elastic films.

Nitto is a leading supplier of elastic and nonwoven solutions for the hygiene industry. We offer comprehensive baby care, adult incontinence, feminine care, and nonwovens for wipes solutions that are high in performance and comfort. With our components, babies stay relaxed, women feel secure, seniors keep their dignity and you even can just wipe away little worries.

Baby Care: The comfort of simplicity

Explore our wide range of soft and comfortable features ideal for baby care products. We help our customers design and produce diapers with remarkable and lasting comfort.

Feminine Care: Empowered Solutions

Our features increase comfort, and are silent when it matters most. Our films have a proven track record in stacking and machine processability, enabling an economic solution for high quality components.

Adult Incontinence: A new form of comfort

Adult incontinence products have their own set of unique requirements. Our innovative components for briefs with ears or belts help you bring comfort and convenience you can rely on.

Nonwoven for Wipes: A new level of flexibility

Discover our highly useful, innovative and customisable solutions from mono-layer carded nonwovens and our SAC and CAC technology for a wide range of applications. The future is coming soon, as we are developing our sustainable nonwoven materials which will be 100 % biodegradable.

MD elastic films and laminates for pants

For extra protection, pants are the perfect solution for end consumers. Trust our extensive knowhow in MD elastic films and laminates and highest skin comfort with breathable solutions.

2-layer laminate:

3-layer laminate:

Benefits & Characteristics

- High processability
- Inline lamination and perforation
- Breathability through inline perforation
- Customised solutions: Adjust the stretch engine to your needs
- Glue-free solution for extra-high stretchability
- Extra softness & perfect fit for the end consumer - less skin imprints and irritations

Flexoprinting

In addition to rotoprinting, we also offer flexoprinting, which allows us more flexibility towards our customers.

Flexoprinting allows to

- Print on thinner films
- Reduce scrap due to on-the-fly plate change

Benefits & Characteristics

- Flexibility in design: Up to 10 colors
- Flexibility in materials: broad variety of substrates, film thicknesses, as well as inks
- Beneficial for partial siliconisation: offers option for reclosability: edges with adhesive plus silicone
